

# We are improving!

## Our Improvement Journey

This week, we have our spotlight back on reading.

Reading Lead - Ms. Whitehead

Since January, we have been improving reading across the school. We have introduced:

- A robust phonics system
- Whole Class Reading
- A new literature spine

Our newest improvement has been the introduction of reading fluency. Being a fluent reader enables comprehension of reading materials.

You may have heard your children practicing poems and songs at home. In school they have been learning how to use their voice, pace of reading and intonation to bring meaning to the text that they are reading. Teachers have chosen extracts, poems and song lyrics to support children in doing this.

Even though this has been newly introduced, we have had many performances across the school and it has been great to see how much the children are enjoying it!
